Jun 16, 2017 - newbie needs help, I'm looking for a working igo software for my hu 800x480 resolution running on the latest win ce 6.0 software! Thanks in advance for your help, I just wish someone could tell me how to use it on my old computer! I know it all works. I just want to make sure I got it right and luckily my computer wasn't damaged. I tried to use the map in IGO format (navtomic, google, windjview, navteq - they all worked except the latter didn't support my resolution.
